

*Dark, brewed tea becomes clear*

**Material:**

- 3 cups,

## Strange tea

Wednesday, 10 October 2012 13:35

---

- spoon,
- knife,
- baking soda,
- lemon juice,
- brewed tee.

### Instruction:

First brew a tee with your parents.

Then set on the table 3 cup - fill each with the same amount of brewed tea.

Do some lemon juice.

To the first add some lemon juice

to the second, nothing, to the third add half tablespoon of baking soda.

## **Explanation:**

The color of the first glass should change to amber - characterized by weak tea,

while in the third to the dark brown - characteristic of very strong tea.
